Glenside Herd Dairy Short-horns

MAY AND OTIS, PROPRIETORS

CYRUS CLAY, NO. 247916. ONE OF THE HERD BULLS

BULL CATALOGUE

MAY 1, 1914

HERDS AT GRANVILLE CENTER, PA.
AND WILLOUGHBY, OHIO

RAILROAD CONNECTIONS

WILLOUGHBY

Willoughby is on the main line of both the Lake Shore & Michigan Southern, and the Nickel Plate Railroads, between Cleveland and Painesville, twenty miles east of Cleveland, and ten miles west of Painesville. Through sleeping car connections are possible from both Chicago and New York, and intermediate points. We also have splendid inter-urban service on the Cleveland, Painesville Eastern suburban lines, with cars running every half hour.

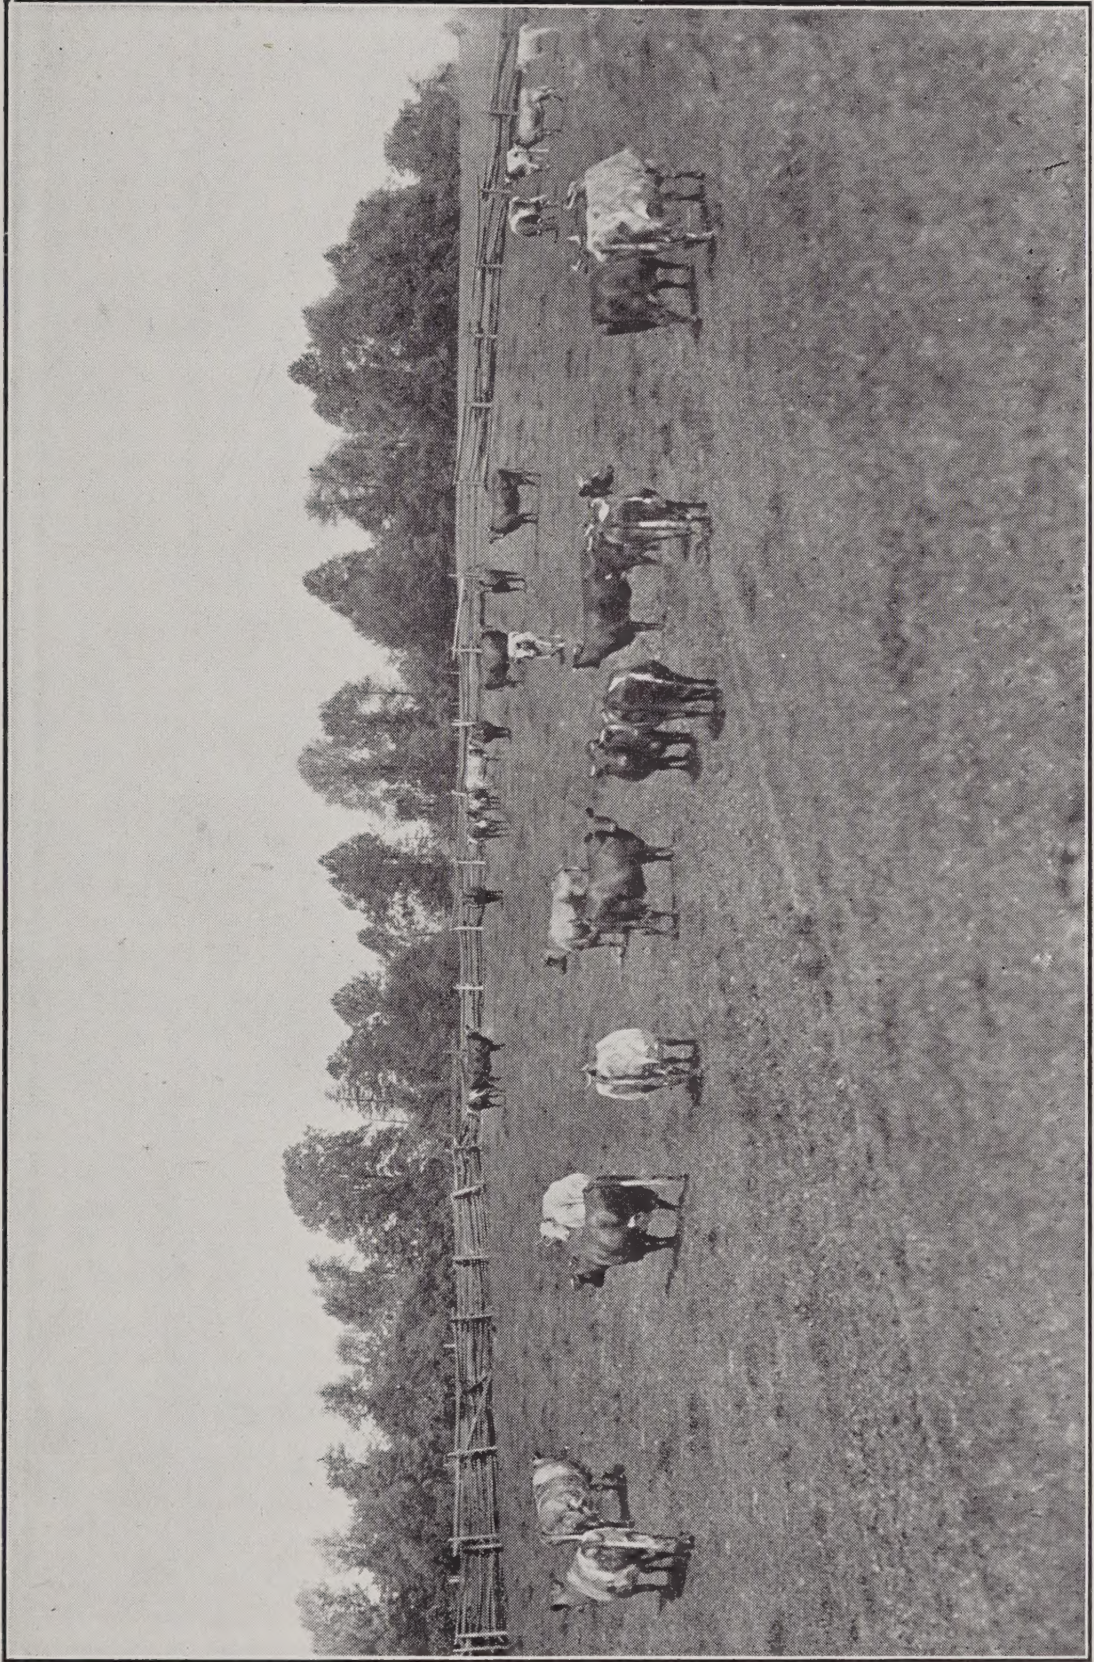

Good connections and time may be made from Cleveland, Painesville or Ashtabula. Regular cars run out from Cleveland in one hour and twenty minutes, limited cars in one hour. All cars go to Painesville in thirty minutes.

The Nickel Plate offers good accommodations for passengers east of Buffalo or from Chicago, all trains stopping.

GRANVILLE CENTER, PA.

Granville Center, Pa., is on the Northern Central branch of the Pennsylvania Railroad, between Williamsport and Elmira. Good connections may be made at Williamsport with the other branches of the Pennsylvania Lines, and through sleeping car service is possible from Philadelphia and Washington, and good connections with Pittsburgh and the West.

Good connections are possible at Elmira with the main line of the Erie, main line of the D. L. & W. and Lehigh.

PASTURE SCENE AT WILLOUGHBY

ANNOUNCEMENT

We take pleasure, with the presentation of our semi-annual catalogue, in announcing continuously increased interest in and demand for Dairy Short-Horns, and making the statement that no other line of live stock has a better outlook at this time.

During the past few months we have shipped stock to nearly all sections of the country, and to men who are taking a live interest in building up herds of the right sort, a sure indication of the general awakening to the adaptability of these splendid cattle for changing conditions in our agricultural and live stock problems.

Your special attention is called to the list of record of merit cows on page 10, nearly all of which have been made under normal herd conditions, and without extra feed and care.

There are now 92 cows to have made records above 8,000 lbs., and 36 to have exceeded 10,000 lbs. One of the new very creditable records is that of Mamie's Minnie, 14,838.8 lbs., a daughter of Mamie Clay 2nd, and sired by Duke of Granville, also the sire of Charlotte B. Our herd average for every animal milked continues right around 8,000 lbs.

Surely this is a creditable accomplishment for a herd of any breed, and proves conclusively that Dairy Short-Horns are entitled to careful consideration, both as a pure bred herd proposition, and as a means of improving the milking and beef propensities of grade herds.

Our claim that the Dairy Short-Horn cow is the most suitable and profitable for the general farmer can be proven only by pursuing general farm methods in the handling of herds, and this has been our policy in the care of our own.

Contained in the list of young bulls are some of the most valuable prospects for pure bred herd sires to have been offered from the herd, and the quality, milking inheritance and moderate prices should appeal as well to the dairyman, stock raiser, or general farmer desiring to improve his cattle holdings along the most profitable lines.

We have used the tabulated pedigree form to give you a better idea of the milking inheritance of the various animals. The usual Short-Horn Association certificate of registry with extended pedigree will be furnished with each animal.

Numbers above one hundred are at Granville Centre, Pa., and those under one hundred are at Willoughby, Ohio.

Correspondence is solicited, and will receive our prompt attention from either address.

Visitors are always welcome.

Our herd has won a great majority of the prizes at the leading shows for the past several years, and have also carried off the honors in competition with the strictly dairy breeds for milk and butter production.

Bessie Buttercup, 1st at the International in 1909, and a daughter of Rose of Glenside,

has a record at five years of age, of 11,539 lbs. of milk in a year.

Fairholme Red Rose 38th, first at International in 1910, has a record of 10,225 lbs., and is one of the most attractive cows in the herd.

Jewel, first at the same show in 1911, and again in 1913, made a record the year following her first winning, of 10,887.8 lbs.

Red Rose of Richbarons, 1st in this class in 1912 has a record close to 8,000 lbs. and was recently sold to Low & Hamilton of Roswell, N. M.

At the Vermont State Fair in 1911, three of our cows, Nancy Lee 2nd, Doris Clay, and Red Rose of Richbarons, in a two days' butterfat test, competing with the Jerseys, won over best three of latter breed by a margin of 2.515 pounds of fat.

BELLE CLARE 2ND.

Sire—Cyrus Clay. Dam—Belle Clare

IMP. ROYAL DARLINGTON

Dewstow, 88,863.

Kirkcharm, 92, 156

Bred at Cranford.

846 gal. in 1905.

Salmon's Freemason, 100,526.

First East Surrey, 1908.

Beau Sabrent, 74,049.

Used 9 seasons at Cranford.

Fedora

Record 740 gallons first calf.

Feathers.

Ave. 1000 gal. 4 years.

Oxford Record, 106,450.

2nd Prize bull at London Dairy Show, 1910. Sire of many winning animals in Dairy Shorthorn classes in England.

Duke of Cumberland 10, 73, 395.

Out of Duchess of Cumberland.

Wild Prince 9th, 78179.

10 Daughters with records above 8,000 lbs., including Barrington Birthday, 10,649 lbs. Barrington Duchess 31st, 10,460 lbs.; Red Rose 5th, 10,150 lbs. 1st Prize Inspection, 1st in Milking Shorthorn Society Prize and Silver Medal, London Dairy Show, 1906.

Oxford Belle

Record 1027 gallons. Sold for 185
Guineas Cranford sale, 1909.

Wild Queen 3rd.

Record 968 gal. Out of Wild Queen
2d, 1st at London Dairy Show, 1898.
Ave. for 3 years, 10,212 lbs. per yr.

Grand Duchess of Oxford.

Record 782 gals. of milk at 12 years
of age.

Duke of Helmsley, 5881.

Sired by Duke of York. Sold for
1000 Guineas.

Grand Duchess of Oxford 106th.

Out of Grand Duchess of Oxford 84th.

Duke of Cumberland 10, 72, 395.

Duchess of Cumberland.

Wild Prince 9th, 78179.

10 Daughters with records above 8000 lbs., including Barrington Birthday 10,649 lbs.; Barrington Duchess 31st 10,460 lbs.; Red Rose 5th, 10,150 lbs. First Prize Inspection, first in milking Shorthorn Society, Prize and Silver Medal, London Dairy Show, 1906.

Royal Nottingham, 59,834.

Out of Molly Millicent 4th, and 1st
at R. A. S. E.

Wild Queen 3rd

Record 968 gals.

Darlington Cranford 10th.

Record 11729.5 lbs. in 1912. Average test 3.8. First at London Dairy Show in 1911; 2nd Cheshire Show same year. In 1910 she was 2nd at Cheshire Show, 3rd at Tring Show; 4th R. A. S. E., Liverpool. Dam of Darlington Cranford 22nd, with a record of 12,995 lbs. and Darlington Cranford 23rd, with a record of 10,476 lbs.

Wild Queen 2nd.

Record 10,212 lbs. for 3 yrs. First
at London Dairy Show, 1898.

Lord Somerset 10th.

Out of Winsome 20th.

Lord Somerset Furbelow, 65,855

Double Furbelow.

Averaged 8673 lbs. milk for 5 years.

Darlington Darling

Dam of Darlington Cranford 6th First Prize Milking Trials, London Dairy Show, 1911, with average production above 1000 gals. milk per year for 3 years. High record 1351 gals. and 1359 gals.

Earl of Blagdon, 62,477.

Darlington Cranford 2d.

Darlington Somerset.

The acquisition of Royal Darlington as one of the chief herd sires is a matter of considerable importance, not only to ourselves, but we believe to everyone interested in Dairy Short-Horns.

During the past several years it has not seemed possible for us to secure in this country, a bull outside of our own line of breeding, with a sufficiently strong milking inheritance to warrant his use in our effort to build up a continuously heavy milking herd.

The numerous attempts of breeders to keep up the milking qualities of their herds with bulls of unknown ancestral qualifications—along producing lines—has so regularly resulted in failure, we have not dared to pursue a similar course, but with the importation of one bull and two cows in 1901 have managed to breed our own herd sires.

In England a number of Short-Horn breeders have been building for the future for a number of years, keeping records, and with this aid constantly improving the natural milking tendency.

Our Mr. May visited the leading herds in England in April last year, with the object in view of purchasing the best Dairy Short-Horn bull obtainable, and we are satisfied that in Royal Darlington we have such an animal.

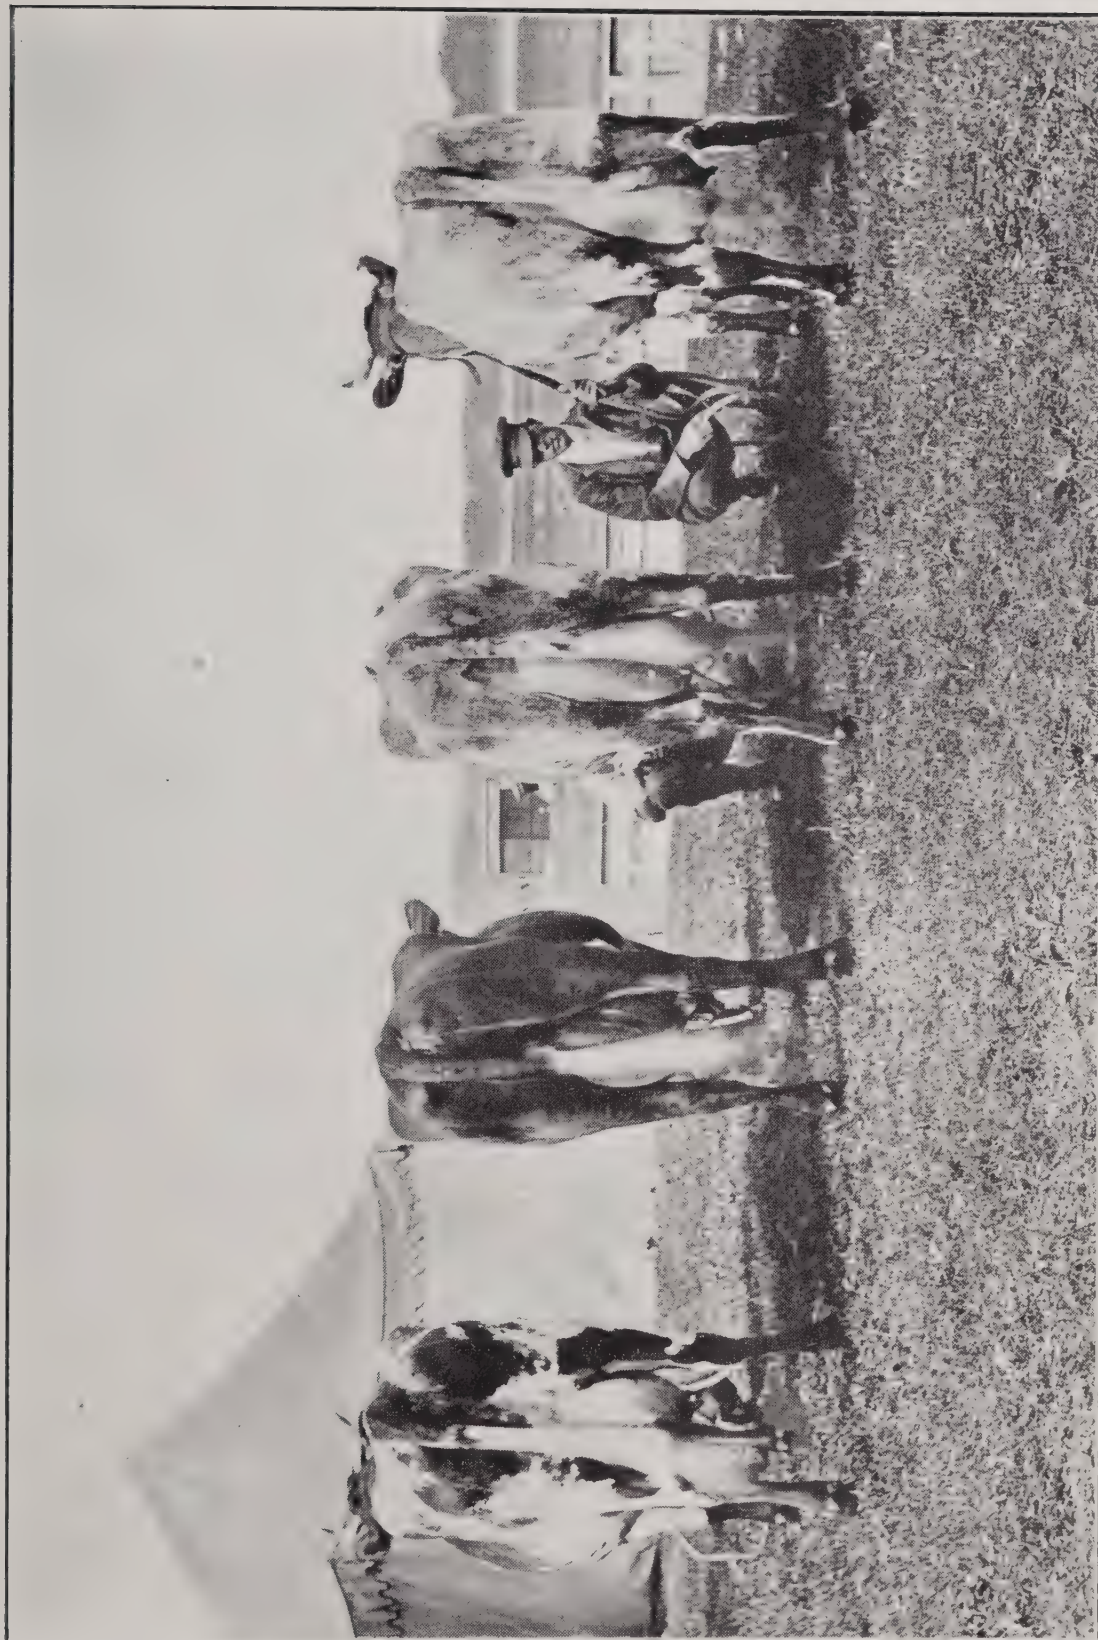

In Mr. May's judgment, this bull's dam, Darlington Cranford 10th is the best representation of an ideal "double decker" he saw in England, and a glance at his pedigree shows that if there is anything in breeding, he may be depended upon to produce cattle of the right sort.

We have used him on a number of our best cows, and feel justified in predicting that the results of this mating will prove an important epoch in the advancement of the Dairy Short-Horn cause.

We are booking orders for bull calves in the order received.

DUKE OF BONDHURST

Color—Roan. Calved April 19th, 1910.

Duke of Edgewood, 316,487....	{	Cyrus Clay, 247,916.....	{	Imp. Duke Buttercup, 160,769
				Margaretta Clay
	{	Snowdrop Waterloo	{	General Clay, 255,920
				Imp. Conishead Waterloo 11th
Bessie 2d, V-68.....	{	McKinley, 172,993	{	Indian Statesman, 144,951
				Tamer V-45, P-779
	{	Bessie V-40, P-559.....	{	Sebastian, 117,325
				Lady Clara V-37, P-544

Duke of Edgewood was sold as a calf and repurchased two years ago. Was First aged and Grand Champion bull last year at Vermont State Fair. His first daughters in milk indicate he will be rated as one of the great Dairy Short-Horn sires.

Bessie 2nd has made 56 lbs. per day for a month. An excellent specimen of the dual purpose type.

Cyrus Clay was First Prize and Grand Champion bull at New York and Vermont State Fairs two years in succession. Also First last year in class at the former show, at ten years of age.

Snowdrop Waterloo's two year old record is 6,707.8 lbs.; three year old record 6,346.7 lbs. In 9 months, starting at 4 years, 8,041.9 lbs.; and as a five year old she gave 11,801 lbs.

McKinley was sold for export. Weighed 3,000 lbs. An excellent sire.

Bessie was a large roan cow of pronounced Bates type and character.

Imported Duke Buttercup has 13 daughters with records above 8,000 lbs.

Margaretta Clay's record is 10,043 lbs. Eight year average 8,426 lbs.

General Clay has 9 daughters with two and three year old records above 8,000 lbs.

Imported Conishead Waterloo 11th made two records in our herd above 10,000 lbs.

Duke of Bondhurst is medium light roan, with good general conformation, of slight dairy type. Has a very nice head and horn, good back line, heart girth, and depth of body.

No. 154

BROOKSIDE ARCHER

Color—Red. Calved March 1st, 1913.

Cloverlawn Archer, 349,620....	{	Modern Airdrie, 265,176.....	{	Modern Marshall, 193,331
				Airdrie Duchess 2d
	{	5th Duchess of Cloverlawn....	{	Columbus 2d, 125,189
				Duchess of Cloverlawn

				Rosalind 6th
	{	Fanny 4th V-37, P-544.....	{	Comstock, 96,861
				Fanny V-29, P-571

5th Duchess of Cloverlawn was owned by us, and was 2nd prize cow in class A for cows in milk at International in 1909. She weighed 1,975 lbs. when sold for beef.

Ruth B has a record of 10,969 lbs. Is a large cow with splendid conformation and well-shaped udder.

Fanny 4th is of outstanding dual purpose quality.

No. 87

WASHINGTON CLAY

Color—Red, little white. Calved January 5th, 1913.

Waterloo Clay, 340,022.....	{	Cyrus Clay, 247,916.....	{	Imp. Duke Buttercup, 160,769
			{	Margaretta Clay
	{	Imp. Conishead Waterloo 11th.	{	Earl of Barrington, 160,780
			{	Conishead Waterloo 4th
Martha Washington	{	Conqueror, 126,888	{	Royal Victor, 120,979
			{	Sadie V-35, P-495
	{	Handsome V-43, P-978.....	{	Spencer Clay, 117,435
			{	West Burlington Beauty V-29, P-899

Waterloo Clay is a beautiful light roan in color, with unusually good conformation, and extremely mellow skin, proving one of the most prepotent sires.

Martha Washington is a splendid dual purpose cow of desired dairy conformation and outstanding quality, weighing above 1,400 lbs. in ordinary flesh. Has milked up to 50 lbs. per day in full flow.

Cyrus Clay was First and Grand Champion at New York and Vermont States Fairs two years in succession, and is an exceptionally good sire.

Imported Conishead Waterloo 11th has two records above 10,000 lbs.

Conqueror was a massive, large bull, red with little white, and a sire of many good ones.

Handsome was a very attractive individual, and has many valuable daughters.

Imported Duke Buttercup has 13 daughters with records above 8,000 lbs.

Margaretta Clay's record for one year was 10,043 lbs. Average for eight years, 8,426 lbs.

Earl of Barrington is said to have been one of the best sires of his day in England.

Conishead Waterloo 4th made a record in England of 11,050 lbs.

Spencer Clay is out of Kitty Clay 4th, winner at St. Louis Exposition.

Washington Clay possesses outstanding Dairy Short-Horn conformation, has a very attractive neat head and horn, straight back and bottom lines, and good quarters.

No. 159

GLENSIDE KNIGHT

Color—Red and white. Calved Oct. 24th, 1913.

Spotted Knight, 385,504.....	{	Knight of the Rose, 321,800....	{	General Clay, 255,920
			{	Rose Buttercup
	{	Lady Belle	{	Anderson, 273,312
			{	Spotted Belle
Elizabeth, 149,763	{	Knight of the Rose, 321,800....	{	General Clay, 255,920
			{	Rose Buttercup
	{	May Bradford, 64,640.....	{	Duke Bradford, 222,993
			{	Scottish Mary 2d

Neither the sire nor dam of this calf are owned by us, but descend strictly from our breeding, and is such as we can recommend.

General Clay has 9 daughters with two and three year old records above 8,000 lbs. Is also sire of Snowdrop Waterloo, record 11,801 lbs.

Rose Buttercup's record is 9,158 lbs., daughter of Rose of Glenside, world's record cow.

Knight of the Rose was bred by us, and is proving a splendid sire in the herd of one of our neighboring Pennsylvania breeders.

This calf is a good, sappy youngster, thrifty and a splendid feeder. Will make a splendid animal.

Color—Roan. Calved August 18th, 1913.

Knight of Glenrose, 349,055....	{	General Clay, 255,920.....	{	Imp. Duke Buttercup, 160,769
			{	Mamie Clay 2d
	{	Rose of Glenside	{	Bell Boy 2d, 162,088
			{	Belle of Glenside
May Buttercup	{	Imp. Duke Buttercup, 160,769..	{	Duke of Kirkby 17th, 160,774
			{	Duchess Butterfly
	{	Mayflower V-38, P-482.....	{	Roan Clay 4th, 105,174
			{	White Stockings 2d

Knight of Glenrose has, without question, the strongest milking inheritance of any living Short-Horn bull, and is proving a splendid sire.
May Buttercup is a valuable breeding animal. Her last record was 9,869 lbs., and best previous record 8,144 lbs., both made with three-quarters.

General Clay has 9 daughters with two and three year old records above 8,000 lbs.; including Doris Clay, 10,617 lbs., Kinsella 6th, 10,941 lbs. at three years, and Maplelane Juliet, above 10,000 lbs. at two years.

Rose of Glenside is the World's Record Dairy Short-Horn cow, with a record of 18,075 lbs. milk and 735 lbs. butter in a year.

Imported Duke Buttercup has 13 daughters with records above 8,000 lbs., including Bessie Buttercup, 11,539 lbs., Maid of the Mist, 10,194 lbs., Nancy Lee 2nd, 10,039.5 lbs., Luvia Buttercup, 9,990.8 lbs., Village Queen 9,514 lbs., Rose Buttercup, 9,158 lbs., and Dairy Maid, 9,000 lbs.; every one a show cow.

Mayflower has a record of 9,648.3 lbs.

Mamie Clay 2nd has a record of 13,232 lbs. as a four year old, and an average for first five milking periods of 10,640 lbs.

Bell Boy 2nd is either sire or grandsire of the four highest record cows in the herd.

Belle of Glenside has a record of 9,186 lbs., and a six year average of 8,239 lbs.

Duchess Butterfly gave 8,974 lbs. in 44 weeks with first calf.

Roan Clay 4th is out of Kitty Clay 4th with a record of 65 lbs. in a day.

Duke Glenrose is a very rugged, promising youngster. Has straight lines, with heavy bone, neat head and neck, and straight legs.

Color—Light roan. Calved October 31, 1912.

Pure Gold, 355,765	{	Sittyton Hero, 283,259.....	{	Rosebud Champion, 236,031

			{	White Stockings 2d

Knight of Glenrose has, without question, the strongest milking inheritance of any living Short-Horn bull, and is proving a splendid sire.

May Buttercup is a valuable breeding animal. Her last record was 9,869 lbs., and best previous record 8,144 lbs., both made with three-quarters.

General Clay has 9 daughters with two and three year old records above 8,000 lbs.; including Doris Clay, 10,617 lbs., Kinsella 6th, 10,941 lbs. at three years, and Maplelane Juliet, above 10,000 lbs. at two years.

Rose of Glenside is the World's Record Dairy Short-Horn cow, with a record of 18,075 lbs. milk and 735 lbs. butter in a year.

Imported Duke Buttercup has 13 daughters with records above 8,000 lbs., including Bessie Buttercup, 11,539 lbs., Maid of the Mist, 10,194 lbs., Nancy Lee 2nd, 10,039.5 lbs., Luvia Buttercup, 9,990.8 lbs., Village Queen 9,514 lbs., Rose Buttercup, 9,158 lbs., and Dairy Maid, 9,000 lbs.; every one a show cow.

Mayflower has a record of 9,648.3 lbs.

Mamie Clay 2nd has a record of 13,232 lbs. as a four year old, and an average for first five milking periods of 10,640 lbs.

Bell Boy 2nd is either sire or grandsire of the four highest record cows in the herd.

Belle of Glenside has a record of 9,186 lbs., and a six year average of 8,239 lbs.

Duchess Butterfly gave 8,974 lbs. in 44 weeks with first calf.

Roan Clay 4th is out of Kitty Clay 4th with a record of 65 lbs. in a day.

Duke Glenrose is a very rugged, promising youngster. Has straight lines, with heavy bone, neat head and neck, and straight legs.

Color—Light roan. Calved October 31, 1912.

			{	Handsome V-43, P-978

Waterloo Clay is a very high class bull, and a splendid sire. Was recently sold to one of our eastern breeders for fifteen hundred dollars.

Mary Washington has made an average of 43 lbs. per day since calving, and will no doubt make a record this year above 9,000 lbs.

Cyrus Clay was First and Grand Champion bull at New York and Vermont State Fairs two years in succession.

Imported Conishead Waterloo 11th has two records above 10,000 lbs. Is also the dam of Snowdrop Waterloo, with a record of 11,801 lbs.

Scottish Hero is sire of Jewel, first at International in 1911 and 1913, having a record of 10,887.8 lbs.; Odette, another show cow, with a record of 10,140 lbs. and Pearl H 3rd, a 50 lb. cow.

Martha Washington has milked up to 50 lbs. per day.

Imported Duke Buttercup has 13 daughters with records above 8,000 lbs., several exceeding 10,000 lbs.

Margaretta Clay has a record of 10,043 lbs., and an average for eight years of 8,426 lbs.

Conishead Waterloo 4th made a record in England of 11,050 lbs.

Waterloo Clay 2nd is an even light roan, with good hide and hair, neat head and horn, and stands squarely on straight legs.

MAPLELANE'S LAD

Color—Red, little white. Calved December 6th, 1913.
